Nick,

Hi. This is Morgan, the researcher from Public Citizen who chimed in during the end of your conversation with Laura MacCleery yesterday. I have attached a PDF of the 15 Passenger Van provisions in the Reauthorization bill. Please let me know if you have any difficulty opening the document.

In the next few weeks, the Senate will be debating the bill. We will keep you informed about what they are up to and what you might be able to do to help inform Senators of your findings.

Take care and keep up the great work!
